There is also the possibility of a second project on an additional 320,000 square meters of land less than 1 km from the first. This second project includes: The creation of a HEALTH ACTIVITIES hub (zone A with buildings for clinics) complemented by a HOUSING UNIT CENTER (zone B, implemented with apartment blocks and plots of 3 and 4 bedroom apartments or villas); A health activities hub will be complemented by physiotherapy and mobility recovery activities with a complementary sports area and swimming pool;

Reuse of the existing ruins complemented by a Glamping campsite interconnected with the surrounding areas, promoting its articulation with the installation of mountain bike trails and maintenance trails, namely obstacle courses, as well as leisure areas (zone C);

Reorganization of an area to promote the installation of a fruit farm (zone D).

Contacts have already been made with health associations interested in this type of service offer. As the Algarve offers an exceptional climate almost all year round, the global market is looking for this service in this region of Portugal.
