Description

Welcome to Infante Residences, an exclusive collection of premium apartments located in the prestigious Estrela neighborhood, one of the most sought-after and cosmopolitan areas in Lisbon. Carefully designed through the transformation of a historic building, this boutique development perfectly combines contemporary architecture, high-quality finishes and timeless elegance with the charm of the city's historic center.

Designed for a sophisticated urban lifestyle, the apartments feature carefully planned interiors, filled with natural light, premium materials and a harmonious balance between design, comfort and functionality. They also include private parking, a true asset in such a central location.

One of the major highlights of Infante Residences is its spectacular rooftop terrace, with a pool and elegant leisure areas. From here, residents enjoy panoramic views over Lisbon, the Tagus River and the iconic 25 de Abril Bridge, providing the perfect setting to relax, entertain friends or simply appreciate the sunset over the city.

In a privileged location, Infante Residences is within walking distance of charming cafés, excellent restaurants, gardens, cultural attractions and an excellent public transport network. Whether you are looking for a permanent residence, an elegant pied-à-terre or a high-quality investment in one of Europe's most vibrant capitals, this development offers a unique opportunity to enjoy the best that Lisbon has to offer.

With only a limited number of T1 apartments and just a few T2 units still available, this is an exceptional opportunity to acquire a residence, a second home or an excellent investment in one of Lisbon's most desirable developments, before the last units are sold. Contact me today for updated information on availability, prices and personalized assistance to help you find the property best suited to your objectives.

Come Home To Portugal!

Why Work With Me?
I am founder of Blue Horizon Properties. Originally from California, I have lived in Portugal for a decade.
